Facultad de Ciencias

We want you!

We're on a mission- to build great technology that truly transforms & harmonizes how global payroll is delivered and managed at companies around the world. And every mission needs great people!
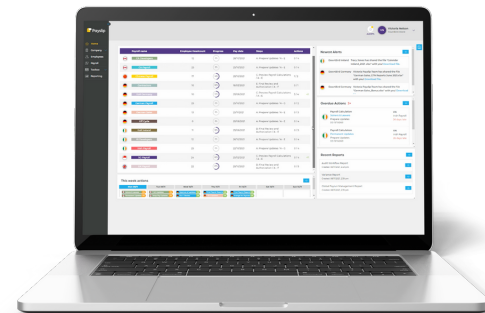

You're the right fit for us if:

✓ You enjoy working with innovative people
✓ You have ideas, energy and passion
✓ You want to be challenged
✓ You understand that attitude is everything

Open Roles

We have a range of open roles across Engineering, Sales, Customer Success and Technical Support. View all open roles at www.payslip.com/careers/ or contact our Global People team at jobs@payslip.com

✓ Backend PHP Developer (Remote/Santander)
✓ DevOps Lead (Santander)
✓ Backend PHP Developer (Ireland)
✓ Senior Software Engineer (Ireland)
✓ Solution Architect
✓ Business Analyst
✓ Graduate Engineers

Sergio Alvarez Martinez
Head of Customer Engineering
– Unican Alumni

"Payslip proporciona una tecnología diferenciadora a nuestros clientes para que puedan harmonizar sus nóminas a nivel global (multi country) con el objetivo de ayudarles en su transformación digital, crecimiento y eficiencia. Trabajar en Payslip es toda una experiencia rodeado de grandes profesionales de diferentes áreas como Engineering, Product Management, Customer Success, Sales..."

Padraic Mulligan
VP of engineering

"The platform has so much potential in terms of what it can do for our clients, and it is really a blank space when it comes to creative ideas. So, it's a really exciting time to join, be innovative and see your ideas come to life on a platform that is changing how payroll happens"

Graduate Program

In 2021 , Payslip launched a Graduate Program showcasing opportunities for career development at Payslip for graduates around the world.

This is an exciting program for university graduates where no previous engineering experience is required. This is a great opportunity for you to join a rapidly growing global company, learn on the job and develop your engineering skills.

Why work with us

✓ **Santander local office opening on April 1st 2022**
✓ Excellent career advancement opportunities
✓ Graduate training and development programmes
✓ Exciting, fast-paced and growing organization
✓ International offices and global client footprint
✓ Competitive salary and benefits package
✓ International team: Bulgaria, Ireland, UK, Spain and the USA
✓ Remote and hybrid working enabled
✓ Diverse and flexible work environment

What we do

We bring clients onto our platform and help them manage and deliver their global payroll in a faster, smarter and better way. We are a digital, cloud-based technology platform used by global employers who require a smart technology solution to harmonize their global payroll operations and scale easily into new countries.

Where we are

We are a global company with international offices in the West of Ireland (Headquarters in Westport), Dublin, Varna, Santander (Spain) and USA.

Clients

We work with a global client base consisting of digital native companies, outperformers & high growth companies as well as large enterprise organizations
